Celebrating Old Shoreham

For 3000 years, the village and countryside of Old Shoreham have been a place of settlement, a river crossing, a wildlife corridor, a gateway to The Downs and a port to the sea and the world.

Can you picture it?

Our inspiration map above highlights Old Shoreham features that we like to celebrate. We want to display as many pieces of original artwork as possible in Shoreham's oldest building, the magnificent and historic St Nicolas Church. Visitors can enjoy and discover what is special about this area and our community.
